

## Home learning

Today is the first day of children being at home due to school closures and I know that lots of parents are anxious about learning at home. We have chosen to use these home learning projects as they provide key learning practice but they are also relaxed enough to not place families under additional strain. Children and families are welcome to engage as much as they would like with these projects and take them even further.

Please find below the links to the home learning projects:

Rainbows to spread joy:

Many of you may have spotted rainbow art popping up in windows in your neighbourhood. The aim is to spread some joy and positive messages. I know the many in saw the houses near my home made me smile over the weekend.
