

Home Learning Year 6

Forest Hill
Partnership

Week Beginning 15th June 2020

Daily Physical Activities

Daily movement is great for children's physical and mental health:

Joe Wicks is hosting a daily fitness session to get the blood pumping:	https://www.youtube.com/user/thebodycoach1
Cosmic Kids are hosting a daily yoga session to help build strength and balance. These fun sessions follow story and are also great for mental health.	https://www.youtube.com/user/CosmicKidsYoga

Reading:

Online eBooks which link to our phonics programme (shown above) will allow children to apply their phonics skills. These can be found at:

<https://home.oxfordowl.co.uk>

Mathematics, English and foundation learning:

From feedback from parents we understand that lots of our families would like different things from home learning. The following offers families a range of home learning for parents to select from to meet their needs and circumstances:

Stage	Aim	Link
Daily learning activities stage	In this stage, learning has been set out in into daily chunks to help families establish a routine of learning together. Learning activities link or build on each previous day's activity.	https://www.robinhoodmat.co.uk/wp-content/uploads/2020/05/W_C-15.06.2020_-_Y5_6-Learning-Project-SPACE.pdf
Transition Project	This week's learning project focuses on your child becoming organised for secondary school. It will give them the opportunity to reflect on what they will need to take with them, how they will get to school, what meal choices they can make and even how to tie a tie.	https://www.robinhoodmat.co.uk/wp-content/uploads/2020/05/Year-6-Transition-Learning-Projects-W_C-15.06.2020.pdf
Daily learning stage	In this stage, children can be a little more independent and engage with daily learning activities using the BBC bitesize website. This is broken down into year groups and learning for each day.	https://www.bbc.co.uk/bitesize/dailylessons

Formal Daily stage

In this stage, children can independently engage with online lessons with The National Academy. Each day there is a Mathematics, English and Foundation subject lesson for each year group. This section has a teacher delivering direct teaching followed by independent practice. This stage requires children to follow the learning each day with lessons building upon prior learning. Children will need to complete the learning in order as it is sequential and builds daily.

This has been created and funded by central government.

What we are learning in school this week:

This week in school we are centering our learning around reintegrating back into school and adjusting to what being in Year 6 will look like for the next few weeks. We will begin the week by reflecting on our Lockdown experiences and how we have felt about returning to school. We will then consider our initial thoughts on how we feel about moving to Secondary School. We will discuss what we are excited for and consider if we have any worries.

Alongside this, we will be focusing the rest of our week on the recent rocket launch. We will be creating a piece of artwork using Van Gogh's 'A Starry Night' as inspiration. Our art will be an interpretation of how we believe space would look through a telescope. Following this, we will explore star constellations, listen to 'The Planets' by Gustav Holst and produce artwork based on this. We will then focus on the rocket launch and study how rockets are built before designing our own.

Reading:

In Reading, we are going to be exploring some Year 6 picture books. We will read them together, study the language used and consider how the illustrations add to our understanding of the story. We will then unpick key messages that underpin the books.

The books we will focus on are:

- How To Live Forever by Colin Thompson <https://www.youtube.com/watch?v=UE7XjC7nXy8>
- The Last Alchemist by Colin Thompson <https://www.youtube.com/watch?v=rIRh0ggKPyI>
- The Man Who Walked Between the Towers by Mordisai Gerstein <https://www.youtube.com/watch?v=5SCA556HSw8>
- The Viewer by Gary Crew

Writing:

We will be choosing 2 days to reflect on from Lockdown to write two diary entries. One will be a day that we remember as one we really enjoyed and then the other will be a day we perhaps found difficult. We'll look at how to create different mood and atmosphere using effective language. We will also be writing a letter to Year 5 students giving them top tips ahead of them joining Year 6.

Maths:

In Maths, we will be spending a day focusing on each of the four operations recapping on the formal methods to solve calculations.

[BBC iPlayer](#) and the Red Button are hosting Bitesize Daily programmes each weekday for learners aged five to 14. Expert teachers have worked with us to create these fun-packed programmes full of learning and inspiration. Each programme will include a combination of core subjects like English, Maths and Science, as well as other subjects such as History, Geography, Music and French.

Sharing learning with teachers and gaining feedback

No matter what learning families choose to do at home, all completed learning can be shared with their child's teacher using Class Dojo. Teachers will comment on your child's learning. Each week, teachers will also send them a message about their learning and give improvement tips or reminders.
